STOVES! STOVES!

During the past week we have received the largest stock of the leading and best known setentile writers Cook and Parlor Stoves, Ranges and Heaters ever brought to Lancaster city; they are all from the best manufactures, and we guarantee every stove we sell. Having just completed two new stories to our already large store, we devote one of these to the exhibition and sale of stoves exclusively, and would be pleased to have our customers call and see our large and varied stock. We have the Celebrated Adams & Westlake Coal Oil Stoves, with Heater attached, which we are selling cheap; they are a good article and just the thing for a sick room. We have also a very large assortment of Zinc and Crystal Stove Boards, which we are selling at low prices. Our stock of Floor Oil Cloths never was so large and never contained so many choice patterns as now; we have some beautiful patterns in one yard wide for 25 cents per yard and up.

Upon a Subject of Vital Interest, Effecting the Welfare of All.

The following remarkable letter from one of The Satisfactory Results of Demiceratic State of the present day is specially significant, and should be of unusual value to all readers who desire to keep pace with the merits of modern

"A general demand for reformation is one of the most distinctive characteristics of the nineteenth century. The common people, as well as the more enlightened and refined, cry of the most distinctive characteristics of the aineteenth century. The common people, as well as the more enlightened and refined, cry out with no uncertain votes to be emancipated from the slave y of conservatism and super stition which has held the masses in gross increase during a large portion of the world's history, and in the time of the 'Dark Ages' came near obliterating the last glimmer of truth. Dogmatic assertions and blind empiricisms are losing caste among all classes of all countries. People are beginning to taink for themselves, and to regard authority much less than argument. Men and women are nolonger willing that a few individuals should dictate to them what must be their sentiments and opinions. They claim the right to solve for the ossives the great questions of the day and demand that the general good of humanity shall be respected. As the result of this general awakening, we see, on every hand, unmistakable evidences of reformatory action. People who, a few years ago, endures suffering the mest intense in the name of outy, now realize the intense in the name of outy, now realize the intense in the name of outy, now realize the intense in the name of outy, now realize the intense in the name of outy, now realize the intense in the name of outy, now realize the intense in the name of outy, now realize the intense in the name of outy, now realize the intense in the name of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of outy, now realize the intense in the same of ou

When this is done and when all classes of physicians become liberal enough to exclude all dogmas, save that it is their duty to correctiseases as quickly and as safely as possible: Io maintain no other position than that of trait homestly ascertained, and to endorse and recommend any remedy that has been found useful, no matter what its origin, there will be no more quarreling among the doctors, while there will be great rejoicing throughout the world."

"I am well aware of the censure that will be meted out to the for writing this letter, but I feel that I cannot be true to m. honest convictions unless I extend a helpleg hand and graphic descriptions of different diseases of the kidneys and liver have awakened the medical profession to the fact that these diseases are greatly increasing. The treatment of the doctors has been largely experimental and many of their patients in venture in which they were casting about for a remedy to cure them."

"It is now over two years since my attention was first called to the near of a most wonderful preparation in the treatment of Bright's disease of the kidneys. Patients had frequently asked me about the remedy and I had heartful remarkable cures effected by it, but like many others I healtful recommend its use. A perso all friend of mine had been in poor health for some time and fils application for insurance on his lite had been rejected on accommend to Bright's disease. Chemical and mic oscopical examinations of his urine revoiled the presence of barge quantities of albumen and grann'ar tube casts, which confirmed the correctness of the diagnosis. After trying all the usual remedies, I directed him to use this preparation and was greatly surprised to observe a decided improves entwinin a month, and within four months no tube casts could be discovered. At that time there was present only a trace of albumen, and he telt, as he expressed it, perfectly well, and all through the influence of Warnet's Saf Cure, the remedy he used ""Alter this 1 prescribed this probleme in "Alter this 1 prescribed this prediction in

"Belonging as I do to a branch of the pro-lession that believes that no one school of medicine knows all the truth regarding the treatment of disease, and being independent enough to select any remedy that will relieve my patients, without reference to the source from whence it comes, I am glad to acknowledge and commend the morits of this remedy thus frankly.

SOME TIMELY PATTISONIAN PHINTS.

Administration-Reduced Expen-

ditures of Government. The Recorder's office in Philadelphia was swept away after a bitter fight. The retention of S. Davis Page, as controller, was fixed by the decision of the supreme court. That abominable fraudulent system carried on by Slack and Crawford, Sealer of weights and measures, in Philadelphia,, was abolished, the office itself was discontinued throughout the State. Other objectionable offices were wiped out by a stroke of the Governor's pen. Good men were carefully selected for each new vacancy as it occurred. The Board of State Charities was reconstructed. The surplus funds of the State were wrested from the control of the Republican ring managers, and invested for the benefit of the Commonwealth. The appropriations were scrutinized and cut down. The jobbers on the "Hill" at Harrisburg were suddenly halted in their career. The Legislature itself was warned by the Governor's vetoes to look more carefully into the bills under consideration in the two House. Over sixty bills were vetoed in rapid succession Equally questionable measures failed to

pass because it was certain that Governor Pattison would not approve them. A Plate But I fleet ve Letter SENATOR COOPER, chairman of the Re publican state committee, has recently attempted in a newspaper interview to vindicate the course of himself and his politi cal associates in the Legislature. That he fails to satisfy even his own constituents is obvious from a letter written by a plain old Quaker farmer, no doubt, to a Republi-can newspaper in Delaware county. He " For some six weeks, much of the time day and night last winter, in the Senate, he plied himself with all his arts as to cunning, treachery, deceit and par-liamentary experience, to defeat the bill repealing the act of 1868 that established the enlarged Recorder's Office at Philadelphia, a sink of corruption of which he was the chief author.

"With equal carnestness, as will be re membered, he opposed the bill to carry into effect the constitutional provision against the odious system of free passes to members of the Legislature. In like manner he opposed the abolition of the De-linquent Tax office in Philadelphia, another notorious sink of corruption. "In the interest of the Standard Oil Com-

they were stupid enough to be made to believe that he was working for them. "In the interest of various monopolics he also opposed carrying into effect the

constitutional provision against discrimination in freight charges.
"How can Pennsylvania Republicans support the state ticket when a man of Mr. Cooper's record and character is put forward as chairman of the state commit-tee, and thus the representative and standard bearer of the party. It is more and more obvious that the mission of the Independents is not yet fulfilled and it is to be hoped the masses of the party will realize the situation before it is too late to redeem

the character of the party, and give it a

reasonable hope of success next year." What the "Ledger" Says. The Philadelphia Ledger, organ of confull share, if not more than their share, of the edium attached to a failure to pass the apportionment bills. Their resolution constitution. to simply go through the motion of meeting twice a week and to refuse to con-sider any proposition is a distinct an-

nouncement that they will not do or make any further attempt to do their sworn | 466,85, and the estimate cost of the past duty. Having reached such a determina-tion they should have adopted one more \$756,000. Now the Legislatures of 1877 resolution-to resign their seats. would appear in a better light if they assumed a virtue though they had it not. THE Philadelphia Ledger says: "The whole question of pay and expense is a small matter compared with the demonstra-

tion that although this Legislature is probably composed of better material than its predecessors, yet a sufficient number of its members are ready to set up partisan loyalty and zeal as against their obligations to the commonwealth and their oaths of

The United Republican association of Philadelphia endorsed Niles and Livsey the other night, and next day itwas sued by a colored caterer to recover \$333 due for the banquet given by the club at its

Some of the Republican newspapers and political speakers resent what they call the Democratic opposition to Livsey because he was born and grew to manhood in England and served in the British army. It is not the Democrats who have made this an objection to Livsey. It is Republican State Chairman Cooper who has said : "It is natural that Pennsylvania should prefer to be governed by a native of Pennsylvania. He alone can understand the people of the state, their peculiarities, local idiosyncracies, their special wants and destres,

and the measures necessary to promote their various interests. This is a knowledge which none but a native can attain. We can safely, as well as with good reason appeal to the native pride of Pennsylvania and by the son of the soil and refuse emphati ally to turn over the state into the hands of a tranger and adventurer, Get on Board.

The Democrats are harmonizing in New York and will elect their State ticket. The Democratic nomination for governor in

Standard Carriage Work there. In Virginia the Mahoneites give it Maryland insures harmony and success up. New Jersey has only had one Republican governor since 1860, and will never have another; Abbett will be elected. In Ohio Hoadley's election becomes more likely every day and some of the "visit-ing Republican statesmen" who went out there from Pennsylvania recently to spy the ground concede Hondley's election. Pennsylvania Democrats should not wait for the returns from other States. Get on board.

The Humes Act. The provisions of the Humes act are

by the majority of the present poard of sinking fund commissioners. The present Republican state treasurer and aufitor general who constitute the majority of that board have adopted a policy which will enable the banks to hold much the greater portion of the state moneys de-posited with them for a year or longer, In the event that Messrs. Niles and Livsey the Republican candidates for auditor general and state treasurer, shall be elected. it is expected to find some device by which the banks may retain the state moneys until the meeting of the next Legislature

true the Republican Senate is guilty of wicked waste. The Democratic House with 200 members, only cost \$250, a per-

apita expense to the State of only \$1.25; the Republican Senate of 50 members costs \$350-a fer capita public expense of \$7.

Cooper's party must go.

Under the new Constitution of Pennsylvania an absolute requirement of every voter over twenty-two years of age, is that he shall have paid a State and County tax within two years of the election at which he shall offer to vote. Formerly this tax could be paid on election day, and in many places voters were never challenged on account of non-payment of it. But now it must be paid at least thirty days before the election, so that the only time left to voters is between now and Octobers 6th, and we therefore carnestly urge upon all voters to make certain of their right to vote, to hunt up the collector and pay their taxes at once. Those who paid their taxes last year are not required to do so this year to secure their vote, but let all such be sure and hunt up their receipts The tax required to be paid is very light. and no voter should neglect this import ant matter; to do so will endanger his

CHAIRMAN COOPER, manager of the Niles-Livsey-Magee combination, recently asserted that the only saving effected by the Democratic administration at Harris burg this winter had been \$29,000 in the charity appropriations. This only demonstrates Cooper's ignorance. According to the Committee of One Hundred's official declaration, Democratic administration has \$300,000 per year. The Democratic House at Harrisburg effected a saving in the orthe last Republican session, The Humes bill, if the Republicans would not obstruct its enforcement, would save at least \$100, 000 a year to the state. The abolition of the office of sealer of weights and measures has saved the people of the state outside of Philadelphia at least \$50,000 a year. ust cost the state one cent.

Senator Cooper said in his recent speech t West Chester that " when we assembled at Harrisburg we found a governor who saved twenty-five cents to the State by walking from the station," Now Senator Cooper knows better, but he apparently believes a lie well stuck to as good as the pany he opposed the Free Pipe Line bill | truth. rom the Erie Herald. The cost of the extra session is trivial compared to the saving which the Humes act will effect if honestly carried out. The Republican candidates for auditor general and state treasurer are both enemies of that act and opposed to its enforcement. Livsey is the direct representative of the treasury ring, which has already manifested a determination to ignore the law designed to give the people the benefit of

the interest on the state deposits. The Appropriation Bill. THE general appropriation bill for 1883, less the increase for common schools, covers precisely and only the sum of \$5,-653,779,68, which is just \$399,589,32 LESS than the total of the appropriation act of 1881 for all purposes exclusive of common schools.
